

## Task: Build a "Campus Club Activity Page"

### Description:

Create a standard-compliant, semantic HTML page for a campus club activity, and explain your technical choices.

- **Deliverable\_1: A club.html**

- **Page Content & Semantic Requirements**

- Your web page must represent a "Campus Club Activity Page" and properly include:

- Header (<header>)
    - Main Section (<main> & <section>)
    - Activity Detail Card (<article>)
    - Footer (<footer>)

- Note: Avoid over-using generic <div> tags where modern HTML5 semantic elements fit better.

- **Deliverable\_2: Fill in your answer in ANSWER.md**
